Municipal Ice Complex (MIC) policy is to check the ID of any customer attempting to purchase alcohol who appears to be under the age of 30. Always request that the customer remove the ID from wallet and place ID in your hand. Never handle customer's personal property (wallet). If the ID is determined to be expired or not acceptable (invalid) immediately return the ID to the customer and refuse the sale. If customer has a problem with the refusal, notify the supervisor on duty immediately. The supervisor will support any MIC employee's decision to refuse the sale or service of alcohol. The supervisor must document the incident in writing and turn in the report to management. Employees that violate MIC policy or State of Alabama law can be subject to disciplinary action up to and including termination.

**COMMENTS:** Based on VBC policy.
